TO KILMARNOCK AND OUR
HOMETOWN HEROES BANNER PROGRAM

On behalf of the Kilmarnock Town Council and myself, we hope you will enjoy these tributes to the men and women who contributed so much with their service to our country. They are from our immediate area but also from across this great country of ours and now we proudly showcase them in Kilmarnock. While many have passed away, others are living here in our community.

This idea came to us from Laura and Daniel Stoddard who saw this concept in Canada and thought we could and should do something similar. Laura and Daniel, we thank you. To all the families who generously brought in their pictures and stories, please accept our gratitude and that of everyone who views these banners.

With warmest regards,

Mayor Shawn E. Donahue

Private Turner was born in Appomattox, VA, in 1896. He enlisted in the U.S. Army on March 29, 1918, at Bedford, VA. He shipped to France during WWI to serve on the front lines as a trench runner. Clearly identifiable—at least in

daylight-by the red arm-bands fixed around their left forearm, trench runners bore messages from one area of command unit to another, and qualified runners would be expected to closely familiarize themselves with areas of the front line into which a battalion would soon enter, generally so as to relieve the line's present occupants. Runners had to excel in map-reading and at reconnaissance. Speed and accuracy were essential in ensuring that the relieving forces were in place before daylight; in short, before the enemy force could catch troops in the open with artillery fire. He sailed back via the M.S.S. Maui from France April 1919 and honorable discharged at Camp Lee, VA, on March 31, 1919.
